6th Annual Dinner

President's Corner 會長的話

Being a founding Convenor of the Urban Design Alliance (UDA) in 2002, I played a part for the transformation of UDA into HKIUD in 2010. Having been the Chairman of the Membership and Education Committee since HKIUD establishment, I feel honoured with valued ownership to have processed the admission of over 140 Full Members and 10

Corporate Affiliates, creating an increasing influence in public policy of developments. With my service in the Government, HKIA, HKIP, HKU, UDA and HKIUD, as well as 30 years' working experience and networking in the development circle, I envision bringing our Institute into a higher platform, through "Government-Industry-Academics-Research" (官產學研) collaborations.

Vision

- To bring higher value of HKIUD and its members to the community, through realising the benefits of urban design

Missions

- To contribute to the quality of Hong Kong's built environment through the application of urban design principles
- To foster Government-Industry-Academics-Research collaborations in embracing urban design as a norm
- To bring HKIUD as a professional qualification in recruitments and LegCo Functional Constituency
- To strengthen networking with other design and professional bodies, both local and overseas, for synergies
- To groom young members in taking up leadership roles for the succession of the HKIUD Council
- To institutionalize a knowledge management (KM) system, in sharing of knowledge and best practice
- To create digital media chatrooms for exchange of ideas and information amongst members
